

# SANDY McBERNIK

Her name was Sandy McBernik. She was already fifteen years old and she came from Edinburg in Scotland. Her parents worked as farmers.

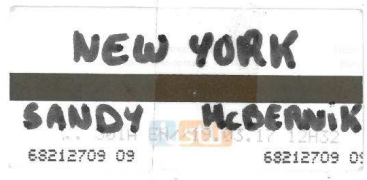

She used to help them every other day, because she used to also go to school. She was the second of four sisters.

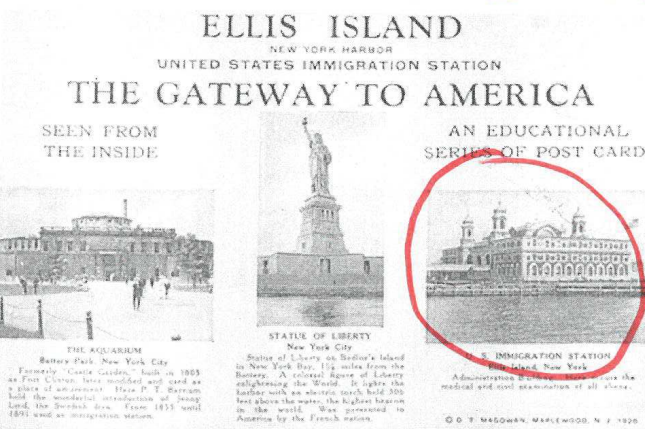

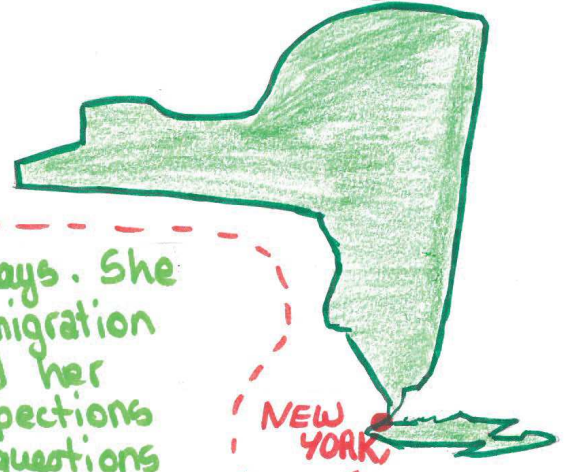

They lived in terrible poverty, so her parents wanted her to go to America to find a good job and earn a lot of money because she was very smart.

She bought a ticket to New York.

The crossing lasted twenty days. She arrived in Ellis Island, the immigration station. The officials checked her papers, gave her medical inspections and asked her a series of questions.

Nowadays, we don't know where Sandy has ended up. Maybe she went to California because the movie studios settled in

## HOLLYWOOD

Perhaps, she wanted to be an actress, but at the beginning, she used to earn a living and work as a nanny for six months.

Then, she may have been very famous and very rich and come back to Scotland to help her family with the money she had saved
